

## FRESENIUS MEDICAL CLINICS & FRESENIUS KIDNEY CLINICS

### **FMC – *Wahiawa, HI***

Remodel to add 6 new dialysis stations and new water treatment area in existing FMC clinic.

### **FMC – *Channel Islands, CA***

Remodel approximately 8200 square feet of existing gutted retail space into new dialysis clinic with approximately 20 stations including OSHPD requirements and Title 24 calculations (envelope calculations to be provided by others).

### **FMC – *Bellflower, CA***

Remodel to existing dialysis clinic per architectural plans.

### **FMC – *La Jolla, CA***

Tenant improvement to approximately 13800 square feet of existing shell building into new dialysis clinic with approximately 24 stations including OSHPD requirements and Title 24 calculations (envelope calculations to be provided by others) and new adjacent training

### **FMC – *San Fernando, CA***

2-story shell MOB approximately 15,800 square feet total. Design shall meet Title 24, OSHPD and LARUCP requirements as required.

HVAC overall calculations and design utilizing new roof top system and split systems, Air distribution and controls. Plumbing design (assumes main service is adequate). Fire protection design (performance specification). Equipment coordination.

### **FMC – *Fremont, CA***

Replace existing angle stops at relocated tech repair sink. New standpipe per latest FMC detail. Redo tech repair R.O. loop. Cut existing exhaust (10-inches in diameter) up to above ceiling. Add grille (tech repair). Remove mop sink from bi-carb area. Add floor sink. Add new SDS and Granuflo systems.

### **FMC – *Rancho, CA***

Improvements to approximately 6,080 square foot existing building.

### **FMC DIALYSIS – *Berkley, CA***

Interior improvements for an approximately 9500 square foot site, one floor, single-story kidney dialysis center. Class B Occupancy to become I-1.2 Occupancy.

### **FMC DIALYSIS – *Oxnard, CA***

Interior improvements of an approximately 2,200 square foot expansion of existing kidney dialysis center. Six new stations, relocated water treatment, and added Granuflo systems.

### **FMC DIALYSIS – *Costa Mesa, CA***

Revise standard FMC details to vendor specific hot water RO with acid/bicarb. Revise piping to include vendor specific requirements.

### **FMC DIALYSIS GATEWAY EAST – *San Diego, CA***

HVAC-existing system to remain (renovation only), air distribution and controls, only at revised areas, plumbing design (assumes main service requires new water line-all work renovation is below ceiling, fire protection performance specification, and equipment coordination.
